

Announcing Our IgM Assay Launch

Combatting COVID-19 with a set of solutions

The new SARS-CoV-2 IgM antibody test provides information about an individual's immune status with a positive predicative value of 95.5% in a population with disease incidence as low as 3%. As COVID-19 outbreaks continue to grow in intensity in many communities around the world, highly accurate tests such as this are critical for providing reliable information.

AACC 2020

American Association for Clinical Chemistry Scientific Meeting & Clinical Lab Expo

Due to the threat of the ongoing coronavirus pandemic, AACC's Board of Directors made the pivotal decision to host the 2020 American Association for Clinical Chemistry (AACC) Annual Scientific Meeting & Clinical Lab Expo as a virtual event rather than a live meeting.

We will continue to support AACC's mission to provide global leadership in advancing the practice and profession of clinical laboratory science and medicine virtually. We will inform you soon on how Beckman Coulter and AACC will partner together in the coming months, including plans for virtual workshops and product demonstrations during the expo.
